The moodbloom way

At moodbloom, we believe in constant evolution. That means that we only offer items in limited runs, usually no more than two weeks (and typically only for one). When we say that things are only offered in a limited run, it really *is* a limited run. Sometimes, if lots of customers are demanding a particular item, we'll add it into the permanent collection.

We're always scouring for the next best thing. If you have something you're looking for—even if you don't know exactly what it is—[reach out to us](#) and we'll see if we can find that special piece that really speaks to you and expresses who you are.
